APPLICATION POOL

This year, MAPS is dividing Mock Panel submissions into two pools: one for applicants who have more experience or success with past applications, and one for those who may be first-time applicants, or who have not had successful past applications.

Our prize is the same for both categories, and applications will be assessed equally (panelists will not be “harder” or “easier” on either pool, and neither pool gives you a better or worse chance of being selected). Our hope is that this will provide applicants

with a more equitable opportunity to receive helpful feedback no matter where they are in their creative careers.
